Catching Jordan

By Trinity Lane

Catching Jordan is an amazing novel with suspense and high school romance. Jordan Woods is surrounded by hot guys all the time. On the football field she is the only girl on the team and kicks serious butt. Then Ty Green comes to her school and she isn’t impressed until a little later. But, she starts to notice someone else... her best friend, Henry, who has always had a crush on her.

Who will Jordan decide to be with and how will she score a major deal at her dream college?

Find out by reading Catching Jordan.

Looking for energetic, enthusiastic Teens: That could be you: Teen volunteers are important! They are reading buddies: helping a child once a week with homework, math, or reading. Teens also help with summer reading programs; write articles and reviews for this teen newsletter; and assist with the Christmas parade, Thanksgiving Festival, and Read Across America. The volunteers also make suggestions for the books, CD’s, and DVD’s for the library to purchase. We hope you will consider volunteering at the library closest to you.
